How to use Garner with a Flexible Spending Account (FSA)

If you have an FSA through your employer, do not use FSA funds to pay for bills that will be reimbursed by Garner. Medical bills paid with FSA funds cannot be reimbursed by Garner, as IRS rules prohibit “double dipping.”

How your costs are covered

Use Garner:

After using the Garner app to find & see a Top Provider, do not pay these bills using funds from your FSA.

Garner will cover eligible services and visits with Top Providers up to your benefit amount.

Use your FSA:

Use your FSA when Garner can't reimburse you, such as dental care or services that are not eligible for Garner.

Keep in mind:

If you exhaust your Garner funds, you may be responsible for paying some medical bills up to your plan maximum.
